Bids/proposals may be hand delivered to the designated location in the office issuing the solicitation. No other correspondence, other than bid documents, should be placed in the inner envelope.

**J. INSTALLATION:** All items that must be utilized to move product from tank truck into OWNER'S tank must be supplied by Bidder. - L. SAFETY DATA SHEETS:** Safety Data Sheets and descriptive literature shall be provided with the bid/proposal for each chemical and/or compound offered. Failure on the part of the Bidder to submit such data sheets may be cause for declaring the bid nonresponsive. - M. PRODUCT INFORMATION:** The Bidder shall clearly and specifically identify the product being offered and enclose complete and detailed descriptive literature, catalog cuts and specifications with the bid to enable OWNER to determine if the product offered meets the requirements of the solicitation. Specifically, a carbon source replacement at the specifications outlined in Attachment A, and polymer as specified on the bid tally sheet. In the event the product is found NOT to be fit for the purpose intended, any contract will be cancelled and the cost of removal of any product delivered will be at the expense of the Bidder.

OWNER reserves unto itself, the unilateral right to either not extend an offer to the next lowest Bidder or to rebid the subject chemicals.
1. In the case of annually renewable contracts, the bidder may submit a request for contract price increases once annually for each renewal year. Economic increases shall be limited to the increase specified in the Bureau of Labor Statistics (BLS) Producer Price Index – Not Seasonally Adjusted (“PPI-NSA”) for Chemicals and Allied Products (Series id WPU06), for the 12 month period ending 90 days prior to the end of the then current contract year. Request for contract price increases must be submitted at least 30 days prior to the end of the then contract year. This PPI may be replaced by any other single PPI providing that the substitute PPI constitutes the greatest component of the contracted chemical. (e.g. Series id – WPU061302T1 – Sulfuric Acid). Multiple price indexes will not be considered for the same bid item. Bidder may specify a different index for different bid items based on the conditions identified above. Series ID WPU06 will be used for the duration of the contract if the Bidder does not specify a specific PPI on the Bid Submission Form. If the specified PPI is discontinued by BLS during the duration of the contract, bidder must submit request for change or revert to WPU06.
  2. Negative BLS index: If the agreed upon index is a negative number the bidder shall immediately reduce contract rates by the same amount for the duration of the contract year.

By submission of a bid, bidder agree and accept the terms of items 1. and 2. above for the duration of the contract.

**Q. NEGOTIATION WITH THE LOWEST BIDDER:** Unless all bids are cancelled or rejected, OWNER reserves the right granted by § 2.2-4318 of the *Code of Virginia* to negotiate with the lowest responsive, responsible bidder to obtain a contract price within the funds available to the agency whenever such low bid exceeds OWNER's available funds. For the purpose of determining when such negotiations may take place, the term "available funds" shall mean those funds which were budgeted by OWNER for this contract prior to the issuance of the written Invitation to Bid. Negotiations with the low bidder may include both modifications of the bid price and other items required to be performed. The OWNER shall initiate such negotiations by written notice to the lowest responsive, responsible bidder that its bid exceeds the available funds and that the agency wishes to negotiate a lower contract price. The times, places, and manner of negotiating shall be agreed to by OWNER and the lowest responsive, responsible bidder(s).
